

Seismic *Stack* Syllabus

(Reference Seismic Curriculum Strategy here)

Course Description

This course focuses on day-to-day needs of ICs using Seismic, using real-world examples and eventually pulling in real-world narratives to complete within the context of the class. Only those who've attended the prerequisite course can attend.

Learning Objectives

After completing the course sessions, learners will...

- **Explain** how Seismic impacts their work in [REDACTED]
- **Apply** and **Demonstrate** the process of creating and working with Seismic Livedocs and Liveforms in a way beneficial to [REDACTED]
- **Construct** Livedocs and Liveforms in a way consistent with the Indeed Storyboard Framework and [REDACTED] Brand Guidelines
- **Assess** and **Revise** colleagues' work in Seismic such that it benefits the work of [REDACTED]
